

BRAVA
— ROOF TILE —

ABOUT US

BRAVA Roof Tile offers a complete line of synthetic architectural roofing products in natural profiles including: Spanish Tile, multi-width Cedar Shake, and Slate roofing. Each product line is composed of durable yet lightweight and environmentally friendly material, which combine to provide authentic beauty with long-lasting performance and total peace of mind.

- > **AUTHENTIC LOOK** - BRAVA's products are the end result of a painstakingly detailed engineering process undertaken by the Design Team at BRAVA Roof Tile, the goal of which was to create a synthetic roof tile so authentic in its look that no one could tell the difference when placed side-by-side with its natural counterparts – even up close.
- > **LONG-LASTING PERFORMANCE** – backed by a 50-year limited warranty, BRAVA is designed to withstand even the most severe weather, boasting a Class 4 impact resistance rating (the highest hail performance certification recognized in the industry), Miami Dade approval, wind protection in excess of 110 MPH, a UV protective formulation, and either Class C or Class A fire rating.
- > **ENHANCED CURB APPEAL** – the curb appeal of a property directly correlates with owner satisfaction and higher property value, and few features can add to curb appeal like the aesthetics of a gorgeous BRAVA Tile roof.
- > **LIGHT WEIGHT** – BRAVA Roof Tile are light weight, allowing for easy installation without the need for costly structural modifications or special installation techniques.
- > **COLOR TECHNOLOGY** – BRAVA'S proprietary multi-coloring process means you get the authentic appearance of a natural product, complete with variegated colors throughout the entire product. Thanks to its patent-protected coloration process, BRAVA turns any color you can imagine into a reality for your custom roof – with the help of BRAVA's Design Team, the possibilities are truly limitless.
- > **DURABLE** – BRAVA's proprietary formulation ensures virtually no breakage. This extreme durability surpasses that of its natural counterparts where breakage in shipping and installation can be a very costly concern.
- > **ENVIRONMENTALLY FRIENDLY** – Made in the USA, BRAVA uses recycled material to create a beautiful and durable roof that itself is fully recyclable.
- > **COMPLETE** – BRAVA's full line of accessory tiles make it the most complete and authentic roof system on the market.

WHAT OTHERS ARE SAYING ABOUT BRAVA ROOF TILE

Our 27 year old hand split cedar shake roof was in desperate need of being replaced. We spent several months researching the composite shake tile manufacturers and ordered samples from each. **We were disappointed with how artificial looking so many of the tiles on the market were until we found Brava Roof Tile.** We ordered samples in several color options and were thrilled to see the quality and realistic color of the Brava Shake tiles. Our roof was completed about ten months ago and we've been thrilled with the final product and continue to receive compliments on it. The Brava Shakes easily pass for cedar, have a 50-year warranty, and unlike our old cedar shakes, don't require maintenance every two or three years. So, all said, we're absolutely delighted with the final product and would, (and already have), recommend Brava Shake to anyone in the market for a new roof. – **David Foulds, Homeowner, Brookfield, CT**

Why did I choose Brava Roof Tile for our new log home? Brava's products are lightweight and physically thicker than asphalt, which gives a rugged appearance and creates deeper shadow lines. My Brava Old World Slate roof looks no different than a real slate roof, but it cost much less. **My satisfaction level has not changed over the 9 years since the roof was installed...it's awesome!** Brava is authentic looking, easy to install and durable. – **Amy, Homeowner, Michigan**

My wife of course was looking for something that looked nice, I was more interested in something that would be able to withstand the environment. We chose Brava Roof Tile because they offered a 50 year warranty with their product and pretty much make any color and profile we could want, not to mention we were able to speak directly to Brava's Design Team for advice and direction. My roof is wonderful, I have had so many compliments, people passing by just stop and knock on the door to tell me how wonderful my roof looks, **the roof stands out and brings a sense of luxury to the property.** My opinion is that Brava is the best product on the market for any roof, I have recommended it to several people. – **Jackie Johnson, Homeowner, West Texas**
